

## ALTA XL

OUR MOST UNIVERSAL MULCHER YET

Introducing the Alta Mulcher, the most versatile and durable mulcher we've ever made. Built with both forestry and grass mulching in mind, the Alta allows you to tackle a variety of challenging terrains with ease. Thanks to its integrated mulch door, you can seamlessly switch between forestry and grass jobs. The Alta's widened intake enables you to handle larger areas and thicker brush, while the hydraulic, reinforced push door with roller bar opens up to efficiently intake and flatten branches and bushes. Constructed for heavy-duty applications, this mulcher is engineered for longevity, making it the perfect choice for demanding tasks.

### 1. 2in1

Switch between Forestry and Grass mulching jobs with integrated mulch door

### 2. Push the limits

With the widened intake it is possible to cover even bigger surfaces and bushes.

### 3. Forestry power

The hydraulic and reinforced push door with roller bar, gives an extra opening to intake and push down bushes and branches.

### 4. Heavy built

Even the Alta can be used both as semi forestry and grass mulcher, the construction and design is built with heavy work in mind, for long lasting life time

### 5. Universal

Here is a sum up, forestry, grass land, hydraulic side shift, hydraulic rear door, overly heavy built, extra strong 1.6kg hammers, reinforced rotor, widened intake, optional front use, Cat II, III

## Specifications

Models	Weight kg	Working width mm	Power demand min. HP	Power demand max. HP	PTO RPM	Drive system	Tool pieces	Length mm	Height mm	Width mm
XL 1500	716	1500	80	100	540/1000	5-V belts	14	129	102	1750
XL 1800	766	1800	80	100	540/1000	5-V belts	16	129	102	2050
