

SIGMA XL 1 ROTOR

COLLECTION, FEEDING AND MULCHING OF PRUNING WASTE IN ONE GO

Robust and highly effective. For the professional looking for timesaving pruning waste processing. Collects, feeds fine and entwined pruning waste into the mulcher, even when it is pressed into the soil. Heavy hammers, high rotation speed and fine meshed robust sieve for high-grade mulch. Optimized for the larger vineyard owner and contractor.

1. Capable

Get rid of large quantities of pruning waste or even small trees

2. Selfcleaning

Enjoy clean and precise processing with the finger bar and rakes

3. Optimized

Enjoy optimum sieve / hammer combination to get the perfect fine enriching mulch

4. Dual-Connect

Get flexibility with dual-connect giving you the ability to connect the Sigma to the front or rear of the tractor

5. (Im)proved

Ease of mind with the special improved and proven Aardenburg design after intensive field testing and an extensive quality check
