

X-DELTA XL GRIZZLY

THE HEAVY FORESTRY EQUIPMENT FOR YOUR EXCAVATOR

Based on the proven design of the PTO version, this mulcher will be the ultimate adapter for ultra heavy jobs to get done.

1. Limiter on Rotor, Built for heavy jobs

Designed to handle demanding tasks. The integrated rotor limiter prevents overload, allowing continuous and reliable operation even under tough conditions.

2. Robust & Professional

Shred stumps, bush and even stones with the special Aardenburg wide cold forged serrated hammers of 2300 grams in a special reinforced XL Grizzly design intended for consecutive use

3. High speed

1000 RPM input and high rotor speed for speedy processing

4. Heavy

Extra-thick double-walled housing with changeable wear plates

5. Door

Hydraulic switching between grinding and mulching
